

COSTA RICA'S CAPITAL ENTIRELY DESTROYED

Death List Growing and Casualties May Reach Several Thousand Before All are Accounted For.

THIEVES AND MURDERERS PLUNDER HOMES

Carnegie's Gift to Central American Republics, Palace of Justice, Leveled to the Ground—Inhabitants Fleeing in Terror to Sister Cities.

San Jose, Costa Rica, May 6.—Stories told by terror stricken refugees pouring into this city today increase the magnitude of the Cartago earthquake. Every doctor and nurse in this city is out on the hillside where the survivors are camped, administering to the wounded, and police are attempting to restore order in the city.

Latest reports say 500 were killed and nearly twice that number injured. The city is in ruins and it is rumored that two other small towns have been destroyed. All the municipal buildings have been razed. No Americans are so far reported killed. The American Red Cross cabled \$5,000 for the relief of the sufferers to the American consul.

Survivors and rescue parties from this city are working in the ruins in the hope of finding some still alive. Four hundred bodies have been found and were either burned or buried to prevent pestilence.

Provisions are being rushed to the hillside camp to stave off a threatened famine. The property loss will run high in the millions.

Managua, Nicaragua, May 6.—Cartago, the picturesque and ancient capital of Costa Rica, was destroyed by an earthquake Wednesday night. Five hundred persons are dead and fully as many are wounded.

The first news of the terrible calamity reached here in dispatches from San Jose, capital of Costa Rica, which is 13 miles northwest of the stricken city.

Telegraph wires are down, but from the meager accounts at hand it is known that practically all the survivors are engaged in clearing away the ruins, where scores and perhaps hundreds are dying, beyond hope of rescue.

Thousands of those who abandoned their homes have filled the air with lamentations and prayers. Practically the entire population, terror stricken, as the seismic disturbances continue, are preparing to leave for San Jose.

From the advices received here today the catastrophe occurred about 8:30 o'clock. As the frightened people rushed to the streets buildings were crumbling to earth and few were able to reach places of safety.

Appeals for help have been forwarded to San Jose and to the capitals of other Central American republics.

Thieves and murderers who escaped from the prisoners are plundering the houses, increasing the terror. Martial law has been established and the soldiers and police are having the greatest difficulty in maintaining order.

Cartago was founded in 1563 by Don Juan Vasquez de Coronado, and was the seat of the Costa Rican Government until 87 years ago. It is situated in the beautiful Cartago Valley, at the foot of the volcano Irazu, which is 4,903 feet above the level of the sea.

Thousands are journeying from San Jose to render assistance to the dying and wounded. Food supplies and clothing were sent today and all available surgeons and nurses in San Jose are doing all within their power to relieve the suffering.

It is understood that the President of Costa Rica will issue a proclamation calling upon the people of Costa Rica and the sister republics of Central America to contribute to the wants of the survivors.

A late report says that the telegraph operators at Cartago were killed and some of the San Jose people say their houses were shaken.

Earth shocks also were felt at several points in Nicaragua, near the Costa Rican frontier.

Cartago has an estimated population of 10,000. It has suffered frequently from earthquakes.

Two hours after the first shock was felt in Cartago an immense meteoric passed over the Costa Rican-Nicaraguan frontier, leaving a luminous track for about 10 seconds. This spectacular phenomenon caused great fear among residents of the rural districts of the two republics, where news of the earthquake probably will not be received for weeks, because of the inadequate telegraphic facilities.

It is believed that in Cartago fully 6,000 persons are dead, wounded or homeless.

It is impossible, with the advices at hand, to attempt to give any estimate of the damage to property, but it is known that the loss will run far into the millions.

Efforts are being made to restore telegraphic communication with the stricken city.

San Juan Del Sur, Nicaragua, May 6.—A large part of Cartago, Costa Rica, was destroyed Wednesday night by a powerful seismic movement. Details are very meager as the telegraph lines have been leveled, between San Jose and Cartago. The operators at the latter place were killed.

It is known that at least 500 persons are dead and many hundreds injured. Scores of buildings were thrown down, among them the palace of justice erected by Andrew Carnegie.

The wife and child of Dr. Becerra, of the Guatemalan magistrature to the central American arbitration court, have been killed.

Panic reigns and the earthquakes continue.

San Jose has also been shaken, some of the buildings being damaged, but no deaths are reported in that city. Some persons were slightly injured.

MONUMENTS OF TWO POLISH HEROES TO BE UNVEILED IN WASHINGTON MAY 12

Washington, May 6.—Representatives of the 3,000,000 members of the Polish National Alliance of the United States will join in the unveiling of the monuments of General Casimir Pulaski and General Thaddeus Kosciuszko May 12. The monument to General Pulaski is erected by authority of an act of congress, and the monument to General Kosciuszko was presented to the United States of America by the Polish National Alliance in behalf of the Polish people in the United States of North America. The purpose of this congress is to discuss in all its aspects—political, cultural, scientific and economic—the present status of the Polish nation, to acquire familiarity with the various lines of development of the Polish people, to learn the chief needs of Polish national life and to find suitable remedies for them. The opening session of the congress will convene on the day following the unveiling of the monuments of General Casimir Pulaski and General Thaddeus Kosciuszko May 12, at 10 o'clock a. m., in the New National theater. The work of the congress will be done in five sections, devoted respectively to the political, economic, educational, scientific and emigrational aspects of the life of the Polish people. Appropriate papers will be read and discussed, and resolutions will be adopted. Three papers in the English language will be read at the first plenary session, May 12, relating to the past and present life of the Polish people, its contribution to the civilization of the world and its rights to the future existence.

Port Lincoln felt the force of the disturbances. Although he passed a quiet night, additional doctors have been called, and oxygen tanks were brought to the palace. It being feared pneumonia would set in. The rumor that physicians found the inflammation of the King's bronchial tubes spreading has strengthened the fear that pneumonia is developing. The King's illness means the end of the London social season and may mean the abandonment of Roosevelt's visit. Church services are being held throughout the country and prayers for the king's recovery repeated.

Political worries over the breach between the Liberals and Conservatives in parliament has had much to do with the king's collapse.

On May 6 last year the Postmaster General, Mr. Nathan C. Taylor, was in Newark. The feature of the same was a showing at Davidson's to have the same.

301 Newark Trust Building
NEWARK, OHIO.

FURNITURE FACTORY IS PROSPERING

The Newark, Ohio, Furniture Company, one of the most enterprising firms in the city, and whose business is rapidly growing is contemplating the erection of another building, made necessary by the crowded condition of the plant.

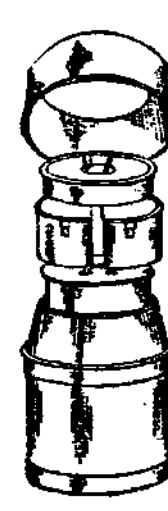

It is planned to erect the new building on the present site of the lumber yard, and the yard will be moved farther back. Increased business has made it necessary to erect another story on the finishing room and this improvement will be made within a short time.

The manufactory is turning out some very high grade work and the orders are increasing daily. A big force of men are employed and the future of the factory is very bright.

LOOKS LIKE A CAKE BOX

And Has a Capacity of 16 Quarts in Four Compartments.

The latest fashion in fireless cookers is very much improved in the matter of compactness by reason of the fact that a vacuum is made use of for insulation, instead of hay, felt, paper and similar materials. The value of vacuum as a non-conductor is well known, but to produce it in metal vessels of any considerable size has been difficult of accomplishment owing to the heavy air pressure sustained. In order to meet this condition the cooker is made in cylindrical form, with a vacuum space between the inner and outer cases. It is constructed of heavy galvanized steel, and

FIRELESS COOKER IN VERY COMPACT FORM.

The cooker is 10 1/2 inches in diameter and 18 1/2 inches high, and contains one 3-quart, two 2-quart and one 2-quart enameled steel vessels, making a total cooking capacity of 16 quarts. It is finished in enamel and has an airtight lid, which retains all odors as well as the heat. It is stated that water brought to a boil on an ordinary stove and placed in the cooker will be too hot to drink in 12 hours.

HEAVY FROST VISITS CITY AND VICINITY

There was a big drop in the temperature again Thursday night, with the result that early risers saw what they expected, a heavy frost. Horticulturists in this section are of the opinion that what frost escaped previous frosts, was killed by the frosts of Thursday night. The loss to horticulturists and truck farmers will amount to thousands of dollars. There is still some hope that all the later varieties of fruit have not been killed.

ADVICE TO OHIO VOTERS

COLLIERS POINTS OUT WHERE OUR CONGRESSMEN STOOD ON LUMBER TARIFF.

Hon. W. A. Ashbrook From This District Voted for Tawney Free Lumber Amendment.

In its current issue Collier's Weekly devotes a page to exploiting the records of Ohio Congressmen on the lumber schedule of the tariff law, urging Ohio voters at the coming primary to bear in mind how their representatives who are candidates for re-nomination stood on this issue. The Weekly sharply criticizes Senator Dick, characterizing him as a service Aldrich man; has mild praise for Senator Burton, who, it says, has ability and is not completely subservient, and prints a list of this state's representatives, with their votes on the lumber schedule. Congressman Taylor of the Twelfth District voted against free lumber, as, indeed, did all the Republican representatives from Ohio except Howland and Joyce. The Weekly says:

One of the earliest states to hold its congressional primaries is Ohio. On May 17 every Republican voter in every Republican congressional district in Ohio will have a chance to vote for or against a standpat Republican candidate for the congressional nomination — for against the men who helped to frame and pass the Payne-Aldrich bill. The purpose of this page is to present some facts and records which may help the Ohio voter in making up his mind how to vote.

Ohio wanted free lumber. On March 3, 1909, just when the tariff bill was being made in Washington, the Ohio legislature passed through both branches a resolution which sufficiently expresses itself in this extract: "Whereas, in this state and in all others, lumber and its products are one of the necessities of life and in general use by all our people; and "Whereas, the price of lumber and all forms of wood continuously advance, thereby imposing a great hardship on our people; and "Whereas, the government should not be a party to its fiscal legislation to the imposition of those exorbitant prices; therefore be it

Resolved by the General Assembly of the State of Ohio that our United States Senators and Representatives in Congress are hereby respectfully requested to use all honorable means within their power to have all duties on lumber, timber, and their raw products forthwith removed, and to have the same placed as soon as possible on the free list."

A copy of this resolution, formally signed and sealed by the senior state officers, was sent to each and every Ohio senator and representative in Congress. A few months previous to this action of the legislature, the Republican state convention in Ohio adopted a resolution in favor of free lumber, so that he demanded for free lumber was actually binding on the Republican members of the Ohio delegation at Washington.

SENATOR DICK'S RECORD.

Both Ohio voters and every Ohio congressman have a chance to obey the state's mandate of the people's will. In the senate there were 6 votes on lumber. Of these 3 were voted against Aldrich and in favor of the state's demand for lower duties on lumber. No one would class Burton as an independent, but he has high intelligence and self-respect, and he is not intimidated by Aldrich. But Dick is void with Aldrich in favor of the lumber duties, on every one of the 124 separate votes in the tariff bill voted against Aldrich on the most serious Senate.

specially provided for in sections 1 and 2 of this act."

HOW OUR REPRESENTATIVES VOTED.

On this amendment the Ohio congressmen voted as follows:

For free lumber: Paul Howland (R.), Cleveland; James Joyce (P.), Cambridge; Wm. A. Ashbrook (D.), Johnston; William G. Sharp (D.), Elvira; Carl C. Anderson (D.), Fostoria; Isaac R. Sherwood (D.), Toledo; Matthew R. Denver (D.), Wilmington; Timothy T. Ansherry (D.), Delaware; Wm. E. Tou Velle (D.), Celina; James M. Cox (D.), Marion.

Against free lumber — William A. Thomas (R.), Niles; James Kennedy (R.), Youngstown; Ralph D. Cole (R.), Findlay; David A. Hollingsworth (D.), Celina; Edward L. Taylor (R.), Chillicothe; A. H. Johnson (P.), Dayton; J. Warren Ketter (R.), Springfield; Herman P. Goshel (R.), Cincinnati; Nicholas Longworth (R.), Cincinnati.

The entire Republican delegation from Ohio shows but two men, Joyce of Cambridge and Howland of Cleveland, willing to break away from Cannon's dictatorialism and vote in accord with the interest of their state, the demand of their state legislature, and the principles of their Republican state platform.

CHOICE AT PRIMARY.

On Tuesday, May 17, every voter in Ohio has a vote to nominate a candidate for Congress; each in his district has a chance to vote for or against the men whose names are here recorded. That is the common person's first chance to relieve his memory of the drumming which cranked wealth gave him a year ago. His second choice comes the eighth day of next November.

In the meantime, there is no better duty pressing on every daily and weekly newspaper in Ohio than to ask each of the men in the right-hand column why he didn't vote for the Tawney "free lumber" amendment, and, in addition, just what he did on the floor of Congress in obedience to his state's request that he "use all honorable means within his power" to bring about free lumber, Ohio, in the character of its population, is much like its middle-western neighbors, Indiana, Wisconsin and Iowa; its prevailing political sentiment is insurgent; its delegation at Washington does not reflect that sentiment.

ELECTRICITY MORE POPULAR SAYS EDISON

Houses of Cement for Plain Folks at \$1200—No Reason for Horses in City Limits.

"The Tomorrows of Electricity and Invention" is the subject of an interesting article in the June issue of Popular Electricity by Thomas A. Edison. Here are a few excerpts from Mr. Edison's diary which will appear May 17th:

Chances for a successful career in the electrical field better than ever before—Electrical inventions not all made by any means—Electricity the only thing that has become cheaper in the last few years—High cost of living comes from the cost of delivering small quantities to the ultimate consumer—Horses have no place in city streets—Hereafter motors will do all the chores—Houses of cement for plain folks at \$1,200 by the Edison system of molds.

We shall have easily \$50,000,000,000 of money in the electrical system in 1925 and five times as many persons will then be employed in electricity as now.

There is absolutely no reason why horses should be allowed within the city limits, for between the gasoline and electric car, no room is left for them. A higher public ideal of health and cleanliness is working toward such banishment swiftly, then we shall have decent streets instead of stables made of cobblestones bordered by sidewalks.

I believe a family could live the year around without using anything but good package food. What is needed is to carry that a step further and devise automatic stores where the distributing cost is brought down to a minimum on every article handled. A few electro-magnets controlling chutes and hoppers and the thing is done.

Homes and rents are much too high. I saw it coming long ago and hence went into making cement, the cheapest and most durable building material man has ever had. I just mold a house instead of a brick. I believe that the houses can be erected complete with plumbing and heating apparatus for \$1,200 each when erected on land underlaid with sand and gravel. In cut stone such a house would cost \$50,000.

NEWARK CONDUCTOR
INJURED IN WRECK
DIES AT WHEELING

Mr. Daniel McGuire, of this city, one of the oldest and most reliable freight conductors in the employ of the Baltimore and Ohio Railroad company, died at the Wheeling hospital on Thursday evening from injuries received about two weeks ago while in the performance of his duty. At the time he received his injury he was coming out of the Baltimore railroad yards with his train, when a switch engine crashed into his caboose, breaking it up and mashing the right foot of Mr. McGuire so as to make amputation necessary at the Wheeling hospital, where he was taken soon after the accident. He made rapid progress in his recovery from the operation but internal injuries developed which resulted in his death at an early hour Thursday evening. During the time he lived in Newark he had made many friends and at the time of his death had a happy home at 73 North Fourth street. The body was taken to Zanesville, where it will be interred in the cemetery where the rest of his family are buried. His widow, who is almost broken-hearted over the death of her husband, has the sincere sympathy of all her friends.

Mr. McGuire started in railroad work as a section hand at Zanesville in July of 1883, and so faithfully and well did he perform the duties of his position that in September of the same year he was given a position as brakeman. In June, 1887, he was promoted to the position of conductor and held that position up to the time of the accident which resulted in his death.

AN EXPERT'S OPINION OF SKIN
DISEASES.

A prominent national expert on skin diseases whose name you are familiar with says that in all his scientific experience he has never found so hard a disease to conquer as Eczema. Yet he does not hesitate to recommend ZEMO as a most successful remedy for the treatment of Eczema, including skin diseases, dandruff, pimples, blackheads and all other diseases of the skin and scalp. He says that not only do its curative qualities make it popular but also the fact that it is a clean, liquid remedy for external use. A great improvement over the old greasy, sticky and loathsome ointments not only pleasant to use but do not destroy the skin life that causes the disease. ZEMO draws the germs to the surface and destroys them, leaving the skin clear and healthy. Can be used freely on infants. Mr. T. J. Evans will gladly supply those who will with a free sample bottle of ZEMO and a booklet which explains in simple language all about skin diseases and how to cure yourself at home with ZEMO.

AMUSEMENTS

"MISS PATSY"
Henry W. Savage, the American
producer of "The Merry Widow," will
be seen at the Auditorium theatre to-
night in "Miss Patsy," which comes
here direct from an engagement of
two nights at the Chicago Opera
House. The company of this city
will have an opportunity of seeing
the famous farce before it is taken
to New York. Mr. Savage has as-
sembled one of the strongest casts of
comedians ever associated together,
including six of the original principal
of the George Ade comedy "The Col-
lege Widow" which he sent to Lon-
don. The company is headed by
Gertrude Quinlan, who will be remem-
bered as the original slinky waitress
in "The College Widow." She has
been provided in "Miss Patsy" by
author Sewell Collins with a part that
fits her extraordinarily eccentric person-
ality like a glove. She is assisted by
Laurence Wheat, one of the cleverest
young light comedians of the day.
Mr. Wheat has been a star and lead-
ing man of some of the foremost
comic opera productions of the past
few years and the company includes

Stock company during a recent en-
gagement in North Adams, Mass., the
Daily Transcript of that city had the
following to say of the opening per-
formance:

The Maher Stock company played a
matinee and night performance to-
day at the Empire theatre and were
greeted by good houses both times.
The matinee offering, "In Montez,"
was a beautiful comedy and the au-
dience was well pleased. Mr. Maher
is one of the most versatile comedians
who has ever visited North Adams.
There seems to be no limit to his
range of funny characters.

Turns and O'Brien, Blossom,
will be the offering of the first per-
formance of the Maher Stock com-
pany at the Auditorium theatre to-
morrow evening. As is the custom
of comedians, the company will be
admitted to the audience and the
usual conditions of a matinee statis-
ting Tuesday.

THE ORPHEUM

Good houses were secured at both
the evening performances of the Or-
pheum last evening. The bill pre-
sented for the last time. The
show opens with "The Laundress" in
which the strength of the comedy is
shown. The play is a very clever
and funny play. The play is a very

VAUDEVILLE AT AUDITORIUM
For those who enjoy the best in
vaudeville the Auditorium theatre is
offering the highest class to be had
for two performances tomorrow.
Adelaide, the most delightful dancer
ever seen here, owing to the great
success with which she has been meet-
ing here this week, consented to re-
main for the remainder of the week,
and four new acts have been added.
Of course, Adelaide whose every
motion is a joy of grace and ease,
with her superb company, is the
headliner. Mack and Company have
a very pleasing sketch with some de-
lightful singing introduced and the
Marshalls have a nice and entertain-
ing musical act. They give a number
of comic songs and novelty musical
numbers. Then there is the female
improvisator who goes in for the
comedy and gives it out in bunches.
Fred Tigell in a robe is very clever
and he sets the laughs and a "good
hand."

The vaudeville bill is taken off to-
morrow to give way to Henry W. Sav-
age's production "Miss Patsy," but
will be seen at a matinee and evening
performance Saturday.

STOMACH MISERY
FOR OVER SIX YEARS

Think of it! After six years of some-
stomach, of gas eruptions, of nerv-
ousness, during which time every
meal lay on his stomach like a lump
of lead, a man was restored to per-
fect health by Micon stomach tal-
lets.

Read what Mr. Hoffman, landlord
of the Webster Hotel, writes:

"I suffered misery and intense
pains from stomach trouble for over
six years, and all the doctoring that
I did or medicines I used were of no
avail until about two years ago,
when I used a treatment of Micon-
na. The first few days' treatment
helped me greatly and upon using it a while
I was made entirely free from any
stomach trouble or complaint what-
ever. Since the cure by Miconna I
have regained my weight, I eat and
sleep well, am not nervous, and my
entire general health is much better."

—Ray M. Hoffman, Webster Hotel, N. Y.,
August 2, 1909.

Miconna relieves stomach distress in
five minutes. It acts like magic. It is
guaranteed to cure your stomach, gas

ASCENSION DAY SERVICES OBSERVED BY COMMANDERY

The Ascension Day services of St. Luke's Commandery No. 14, Knights Templar, observed in the First M. E. church last evening, were largely attended. About sixty Sir Knights turned in line at the hall and marched to the church in a body.

The services opened with the singing of the hymn, "Onward Christian Soldiers," the Apostle's Creed and prayer by the pastor, Rev. L. C. Sparks. The choir sang a beautiful anthem, "Earth and Heaven," by Grammer. Miss Una Marshall rendered sweetly the solo, "The Feat Day," following which prayer was offered by Rev. Joseph Bennett.

Rev. Mr. Sparks delivered the sermon and took his text from John, 8th chapter and 12th verse, "Then spake Jesus again unto them, saying, I am the light of the world: he that followeth me shall not walk in darkness, but shall have the light of life." He spoke at length of the aims and objects of Templarism, of its inception and the crusades and explained everything most clearly. He then applied the text and spoke on the Day of the Ascension and why it was observed. Mr. Sparks handled his discussion in a most capable and entertaining manner and elicited much praise from the knights as well as the remainder of the audience.

After the services the knights and their ladies the ministers and the members of the choir to the number of about 150 repaired to the Masonic hall in West Main street where a delightful evening was spent and an elaborate two course supper served. During which time Marshall's orchestra furnished sweet music. The ladies were given carnations as favors.

Thank You, Gentlemen, But Don't Worry

There are different methods of advertising and sometimes other people advertise for you and help your business. This was most clearly demonstrated recently, when other clothing dealers offered the flimsy argument against CORNELL CLOTHES by stating that they look well, but will not wear satisfactorily. Thank you, gentlemen, but do not worry about CORNELL CLOTHES. CORNELL garments have stood the test. CORNELL garments have brought about more satisfied customers than any other product. CORNELL clothes make customers talk—make competitors talk—make the whole town talk. We pay for printer's ink to advertise our product. We are now thinking seriously of paying for all the advertising we get—hadn't we better pay our competitors for advertising services?

LAST WEEK WE RECORDED OUR BUSIEST—THIS WEEK WILL SURELY ECLIPSE LAST WEEK'S BUSINESS. THE BUSIER WE ARE THE BUSIER WE GET. IT'S EASILY EXPLAINED, THUSLY: UPON MERIT WE CHANCE OUR SUCCESS. WE NEVER FAIL TO MAKE CORNELL CUSTOMERS CLING.

Quite a number from here attended the game in Newark Saturday, and a number visited the city to race on the park and trade.

On Wednesday of last week, while O. B. White, who lives south of town, was pulling a load of grain along the highway, he stopped his team and left them to assist a neighbor who was having some difficulty in loading an unruly hog. While Mr. White was thus engaged his team became frightened and started to run when Wilcox reared them, and endeavoring to grab the hog by the tail, he lost his balance and fell, the wheel passing over one of his ankles, breaking it. Dr. L. C. Leacock was called to dress the fracture. Mr. Wilcox is doing as well as can be expected, but it will be some time before he is able to attend to his farm duties.

There is a wealth of imagination won by the butcher's bill.

We have a day that the people who never pay their bills well on the day of promise.

WAS HANDED LARGE LEMON

For years The Republican has been talking about the banana belt, and the expression has become a sort of trade mark. Today the stories were confirmed in every part of the world when Al McKee, the Grand avenue barber, showed at his office, near the lemon tree in his shop, perhaps the largest and finest lemon ever seen in Wyoming, certainly in the banana belt of the state. The lemon weighed two-and-a-half pounds, measured 15 inches one way and 12 and 12 inches the other, and is perfect in form and color. He has sold it to Charles McKee, who will send it to Chicago. The tree was given by the late Charles M. Nixon, who owned the shop for a good many years, and this is not the first by a good many that has been picked from its branches. The tree has others growing now, but not so large as the one picked today.

The above clipping, together with

the fruit was collected by P. C. Branton of this city for his friend, C. R. Osburn, and now he has left for a resident of Wyoming. Mr. Osburn was formerly a resident of Evansville, Ind. The fruit was shown in the Arcade building. Mr. Branton has the distinction of having the largest lemon on record handed him.
